ABOUT US

State-of-the-art engineering and our vast experience make **New Vishwakarma Industries**, a premier provider of **Electronic brake wear sensors and components** for **almost all the models of vehicles** worldwide.

We have established ourselves as an outstanding name in very short span of time and created a niche for ourselves in our industry through the sphere of **Modern Process Technological Equipments & Plant**. We are pouring our best in **Research, Production and Quality Control**, to widely expand our wings into vast Indian and overseas market.

products that bespeak beauty and elegance, quite enough to jostle for adequate attention. We look forward to a **team committed towards innovation, knowledge, sharing and skills to develop Global Standards**.

We also aspire towards continuous passion for Inspiration, Improvement, Renovation and creating a Market niche for our selves.

Electronic brake wear sensors for your vehicles

With every new day the **quest for acquiring new competencies continues**. Forever searching, experimenting, innovating, learning, moving ahead with our sincere efforts and dedication, shaping the future, and challenging our competencies to create new opportunities, is a never-ending process in the company. We are dedicated to helping build the long-term success of our customers.

Our Vision

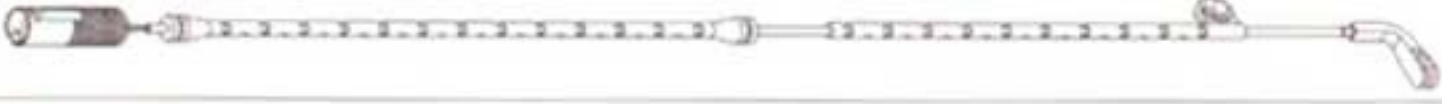

We endeavor to be a **key player in the industry** and strive to be **an ambassador of excellent**

Key Strength

Through a **long-term commitment** to maintain the **highest quality standards** and **adhere closely to client specification** the company has seen a rising amount of business and confidence from its clients. Its product have acceptance in the domestic and export markets through its clients' companies and exporters, we have built a trust that binds the customers to it.
